Our Religious Education Subject Leader

My Name is Mrs Wilkinson I am the Religious Education Subject Leader.

My passion / personal experience with my subject

As a practising Catholic and raising my own, two young children up in the faith, I am passionate about RE as it is the bloodline of Catholic Primary Schools and early education. We place Jesus and the teachings of the Catholic Chruch, in particular the gospel values, at the centre of what we do, preparing children for their life as Christians beyond school. We celebrate and develop our God-given talents and offer the children at St Joseph's experience of life in a community based on Christian virtues. We want to prepare our children to serve as witness to moral and spiritual values in the wider world. We do this through all aspects of the curriculum and life at St Joseph's. It is embedded in all that we do.

Experiences in Our School

We celebrate worship every day St Joseph's. This may be as a class, key stage, whole school or at mass in church. We read, share and respond to scripture and bible stories. We think about what we hear, what we believe, how we celebrate and how we live. This year sees the introduction of our new RE curriculum, working closely with the Archdiocese and local school's cluster. We are inspired by catholic social teaching principles, letting our moral compass guide us. Just recently, we participated in a local appeal for Ukraine and raised money for CAFOD. These are ongoing throughout the year.

Hopes and Goals in my subject

To make some new community links and widen the work we are doing on stewardship and the common good even further.
