Our DT Subject Leader

My name is Miss Hinawski and I am the DT Subject Leader.

My passion / personal experience with my subject

DT has always been close to my heart. Throughout my childhood I was always building or crafting. Even today, design is something I am passionate about, especially interior design and collecting art work. I feel that DT as a subject has the power to hook all children in and they can all achieve. It is an expressive subject where they can all 'have a go' without fear of getting it wrong.

Experiences in Our School

At the end of Autumn term the children were challenged to create their own nativity scene using a variety of different media. We had some amazing entries and the chidren were really proud to show off their creations! KS1 also had the opportunity to take part in a craft club which developed different craft skills.

Hopes and Goals in my subject

This year I hope to develop my subject further by making links with local craftmakers who can come into school to share their talents and inspire the children.

Subject governor: Mrs Philipson
