Our Music Subject Leader

My Name is Miss Fiddler, I am the Music Subject Leader.

My passion / personal experience with my subject

Music has been a big passion of mine outside school, and I have always enjoyed listening to, experiencing, and learning the history behind many different styles of music. I have led Music as a subject previously before joining St Joseph's and have a good understanding of how it can enhance school life. I believe Music should provide children with the opportunity to be creative and develop their confidence in improvisation and performance.

Experiences in Our School

Singing is a big part of life at St Joseph's, whether in our celebration assemblies, Music lessons or in our brilliant school performances. Children here enjoy learning songs that celebrate our Christian faith as well as supporting their learning in other subjects – particularly in Key Stage 1. We have recently adopted a new scheme of work – Kapow – which will give children a broader understanding and appreciation for the distinct styles and history of music around the world.

Hopes and Goals in my subject

This year, I am hoping to provide more opportunities for performances in school and have already ideas in progress with our School Parliament. Through introducing a new scheme, I am hoping all children will experience more of a range of music from lots of various places, traditions, and cultures.

Subject Governor: Steve Perkins
