Our French Subject Leader

My Name is Miss Fiddler, I am the Modern Foreign Languages Subject Leader.

My passion / personal experience with my subject

Travelling has been an important part of my life and I strongly believe learning a foreign language not only enables children to communicate in different parts of the world, but also opens them up to experiencing a different culture, history and way of life. Having Madame McCormick – a French native – as our French teacher is invaluable to giving children at St Joseph's an immersive learning experience. I have personally been encouraged by the teaching and learning at St Joseph's and started to take up the subject in my own time too!

Experiences in Our School

I have worked closely with Madame McCormick to establish a long-term plan and observed the wonderful lessons we have at our school. Children can speak confidently within the lesson, as well as apply their knowledge in their books through varied and differentiated activities. We will be having a 'French Day' to celebrate not only the language, but French history and culture as well.

Hopes and Goals in my subject

This year, I am hoping to embed French even further into the daily routines of school life and introduce the language to Key Stage 1 to prepare them for their future learning.

Subject Governor: Alexa Johnson
