Our Geography Subject Leader

My Name is Mrs Cunliffe and I am the Geography Subject Leader.

My passion / personal experience with my subject

What do you love about this subject, and what is your history with it?

"Geography is a subject which holds the key to our future" (Sir Michael Palin) I am an official Geography geek! I feel extremely passionate about geography; how the subject relates to our everyday lives as-well as our most exciting adventures!
I am really looking forward to us bringing Geography to life by further developing our fieldwork. This year we hope to take geography increasingly outside the classroom to gain 'hands on' experiences.

Experiences in Our School

What has happened recently in this subject? What do you do weekly / termly?

We are proud of our cross-curricular links with other subjects in school. We particularly enjoy our Eco and Geography subject days; our classes regularly enjoy a fabulous time navigating the globe and learning all about our chosen country! Hopes and Goals in my subject I hope to develop the WOW factor of geography for all pupils; both advantaged and disadvantaged. I hope that our Geography, along with other related subjects, helps our children to understand the complexity of our world and appreciate the diversity across continents; helping to bridge divides in our ever-changing world.

Hopes and Goals in my subject

What are you hoping to do this year?

I am really looking forward to us bringing Geography to life by further developing our fieldwork. This year we hope to take geography increasingly outside the classroom to gain 'hands on' experiences.

Subject Governor: Claire Wilkinson
